

Practice Questions Edition'22

Prepare Yourself for Exam **AZ-204**: Developing Solutions for Microsoft Azure

Enter

Hello learners!

AZ-204 training and certification equips you to accomplish the following technical tasks: develop Azure compute solutions; develop for Azure storage; implement Azure security; monitor, troubleshoot, and optimize Azure solutions; and connect to and consume Azure services and third-party services. This cloud certification also enables you to select the code language (C# or Python) that's included in questions when you launch the exam.

With AZ-204 Certification you'll be able to Develop Azure Infrastructure as a Service Compute Solutions and Azure Platform as a Service Compute Solutions. Also, Develop Azure security and storage solutions

Here are the practice questions for you to test yourself!

Here goes the Quiz

- ① Which of the behavior is used to create a constraint on the code you write in the function app?

Select one:

A. Event behavior

B. Replay behavior

C. Function behavior

D. App behavior

- ② Which of the following entities can be used for reading and writing a state?

Select one:

A. Durable Entities

B. Function Entities

C. Timer Entities

D. Event Entities

- ③ What is the functionality of a durable task framework?

Select one:

A. Function Provider

B. Task management

C. Storage provider

C. Trigger management

Here goes the Quiz

4 Does Cosmos DB take the backup by default?

Select Two:

A. YES

B. NO

5 Which backup mode is used to take regional zone storage?

Select one:

A. Continuous Mode Backup

B. Replication

C. Periodic Mode Backup

D. Geo-zone backup

6 Which of the technique can be used to consume the change feed at your own pace?

Select one:

A. Change Feed

B. Change feed pull model

C. Feed range

D. Change feed process

Here goes the Quiz

- 7 Which of the below feature can be used to patch a single document based on ID and document in Cosmos DB?

Select one:

A. Multi document patch

B. Single documents patch

C. Conditional update

D. Patching

AZ-204:
DEVELOPING SOLUTIONS FOR MICROSOFT AZURE

Bootcamp Course to become a certified Azure Developer Associate

This CloudThat certification training equips the aspirants to rigorously prepare for AZ-204 exam and become Azure Developer Associate

A man in a white t-shirt and glasses is holding a tablet and pointing at it with his right hand, smiling.

- 8 Which of the following instance can be used for balanced CPU and memory ratio?

Select one:

A. Compute optimized

B. General purpose

C. Memory optimized

D. GPU

Here goes the Quiz

- 9 How do you access the managed disk from the single endpoint for the applications in Azure?

Select one:

A. Azure Disk pool

B. Azure disk

C. Azure Storage

D. Azure monitor

-
- 10 Which of the feature is used by app service for managing the user identity and authentication?

Select one:

A. Microsoft identity platform

B. Open ID connects

C. Federated identity

D. AD Authentication

-
- 11 Which of the following app setting plan is used to enable local cache on web app basic?

Select one:

A. WEBSITE_LOCAL_CACHE_OPTION = True

B. WEBSITE_LOCAL_CACHE_OPTION = False

C. WEBSITE_LOCAL_CACHE_OPTION = On

D. WEBSITE_LOCAL_CACHE_OPTION = Enable

Here goes the Quiz

12 How would you distribute the traffic across multiple applications?

Select one:

A. Weighted

B. Priority

C. Performance

D. Geographic

13 What is the benefit of application insight?

Select one:

A. Monitor web application and detect performance

B. Diagnose the cause

C. Schedule routing

D. Maintain application availability

14 Which of the feature is used to restrict public access to API applications?

Select one:

A. VNet

B. Subnet

C. VM

D. NSGs

Here goes the Quiz

15 Which service is used to store secure secrets on Azure?

Select Three:

A. Azure Firewall

B. Azure Key Vault

C. Azure private Link

D. Azure Service Bus

16 Which of the following RBAC role is used for restricting access for others?

Select one:

A. Owner

B. Contributor

C. Reader

D. User access administrator

17 Which of the following pricing tier support multi-region deployment in API management?

Select one:

A. Developer

B. Basic

C. Standard

D. Premium

Here goes the Quiz

18 How do you validate cache response in API management?

Select one:

A. Get from cache

B. Cache-lookup

C. Store to cache

D. Get value from cache

19 Which of the below transformation policy is used to covert request/response from JSON to XML?

Select one:

A. Convert JSON to XML

B. Convert XML to JSON

C. Mask URL to content

D. Set backend service

20 How do you convert request URL From public form to the form expected by the web service?

Select one:

A. Set backend service

B. Rewrite URL

C. Set query string parameter

D. Set HTTP header

Check out the answers below:

1	B	2	A
3	C	4	A
5	A	6	B
7	B	8	A
9	A	10	C
11	A	12	A
13	A	14	D
15	B	16	B
17	C	18	B
19	A	20	B

About CloudThat

CloudThat is the first company in India to offer Cloud Training & Consulting services for mid-market & enterprise clients from across the globe. Founded by Bhavesh Goswami, an ex-Amazonian with more than 10 years of experience in Cloud computing space, CloudThat has been empowering tech professionals with best-in-class training and consulting services.

Since, our inception in 2012, we have trained over 350K IT professionals from Fortune 500 companies on technologies such as Microsoft Azure, Amazon Web Services, Artificial Intelligence, Machine Learning, Google Cloud, IoT, OpenStack, OpenShift, DevOps, MongoDB, Big Data and more. We have global presence with offices in Bengaluru, Mumbai, UK, and the USA.

Over the years, CloudThat has proven its excellence in the field and has recently been recognized as the winner of Microsoft 2020 Global Partner of the Year Finalist award. With expertise in major Cloud platforms, CloudThat is a proud Microsoft Gold Partner, AWS Advanced Consulting Partner, Google Cloud Platform Partner, and Databricks Partner.

Build your career with CloudThat

We are Microsoft Gold Partner and the winner of Microsoft Learning Partner Year Finalist award, 2020.

CloudThat CEO is the MCT Regional Lead for India.

Till date CloudThat has trained more than 350K+ professionals in VILT & ILT modes.

We are a dynamic team of Microsoft certified trainers and professionals.

We have attended to the training and consulting needs of more than 100 clients.

We offer 200+ cloud certifications in emerging technologies.

Our training modules are equipped with 50%-60% hands-on labs sessions.

**Best
of luck!**
